

Jumbalaya *Notes*

A Fresh Blend of Reggae, Soul, Jazz, Calypso & Classic Hits

JUMBALAYA has been around for a long time; about 22 years on the California scene. During that time they've played the scale of events from corporate conventions, city festivals and concert halls to intimate club settings, parties and weddings. Yet there has been one consistency about the group — they are among the most *entertaining* groups you'll ever encounter. Led by Keidi Howard, this amalgamation guarantees its audiences will not only *hear* great music, perfectly suited to the occasion, but that they will *feel* the music also.

You'll feel it in your bones as the music stirs incites a youthful enthusiasm. And you're guaranteed to feel it in the way your guests express just how much they enjoyed your affair. Our motto is: "We like to make you look good with business associates, friends and family."

Thanks for continuing to call us back again and again!"
